

Candlelight Catchers

Items Needed:

Faultless Liquid Starch

Waxed paper

Colored tissue paper cut into small pieces

Paintbrush

Clear glass votive, glass jar or baby food jar

1. Paint a thin layer of Faultless Liquid Starch on a small area of clean glass container.
2. Smooth several pieces of tissue over the starch in a single layer.
3. Paint another layer of Faultless Starch over the tissue. Repeat until outside of jar is covered. To get darker colors (or to create new colors) overlap layers of tissue, being sure to cover each layer of tissue with starch.
4. Turn jar upside down on waxed paper to dry. Allow Candlelight Catcher to dry overnight.
5. Place candle inside, light, and enjoy.

Since 1887

Faultless Starch

NEVER LEAVE A BURNING CANDLE UNATTENDED
