

STARCH CLAY

Items Needed:

1/2 cup of Faultless Dry Starch

1/3 cup of water

1 cup of salt

1/4 cup of cold water

Food coloring (if desired)

Small saucepan

1. Heat the salt and the 1/3 cup of water over medium-high heat for around 4 minutes. Stir occasionally.
2. Remove the mixture from heat and add the Faultless Dry Starch and cold water.
3. Stir until the mixture completely thickens.
4. Let cool a couple of minutes, and then knead.
5. If clay feels too sticky, work in some extra Faultless Dry Starch when kneading.
6. Add food coloring to mixture if color is desired.
7. Make into whatever shape or figure desired and let dry for 1 to 4 days.

Since 1887
