

# Modeling Material

## Items Needed:

1 cup Faultless Dry Starch

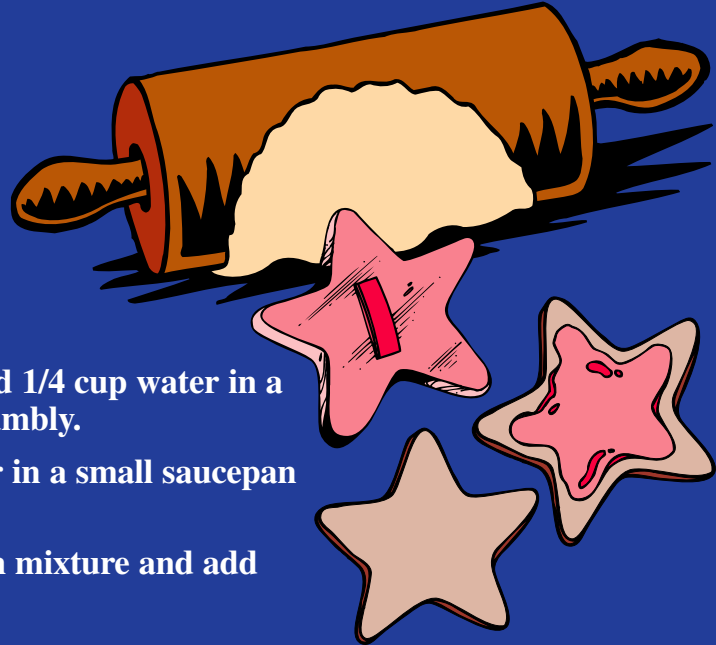

1/2 cup salt

3/4 cup water

1 teaspoon vegetable oil

Small saucepan

1. Combine 1 cup Faultless Dry Starch and 1/4 cup water in a mixing bowl. Mix with fingers until crumbly.
2. Combine 1/2 cup salt and 1/2 cup water in a small saucepan and bring to a boil.
3. Add hot salt water mixture to the starch mixture and add vegetable oil.
4. Knead thoroughly with your hands.
5. Model into desired shapes or roll out with a rolling pin and cut with a cookie cutter.
6. Allow to dry for 36 hours or speed up drying by putting objects onto a lined cookie sheet and into an oven heated at 250 degrees for an hour.
7. Paint objects when they are dry.

Faultless Starch
